

What to do with my retirement savings form

Why do I need to complete this form?

Because you are leaving your employer, you need to tell Alexander Forbes what to do with your retirement savings. It is important that you understand your options and make the right decision for you and your financial well-being.

Name of fund

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

What are my options?

1 Keep your savings where they are

- Your money will be invested in the default option, which the trustees of the fund have chosen for you.

How does this benefit me?

- It is the easiest process.
- You can change your decision or investment option later.
- Your money will stay invested in the same portfolios.
- You will not be taxed on this option.

2 Transfer

- Move your money out of your employer fund, with an option to take a small cash portion or transfer all your savings.

How does this benefit me?

- Your transfer amount will be invested in a fund of your choice.
- You can add any other retirement savings you have, to keep them all in one place.

Important: The savings you withdraw may be taxed.

3 Withdraw all your savings

- Take your retirement savings in cash.

How does this benefit me?

- You can access all your retirement savings now instead of at retirement.*

**Please note: If you cash in your retirement savings now, you will not be able to earn the income you need when you retire.*

Important: The savings you withdraw may be taxed.

If you need help choosing or understanding your options, please contact your dedicated financial adviser or ask your employer if unknown. Alternatively you can contact Alexander Forbes below.
