Investment portfolio options

There are two options for choosing your investment strategy:

■ The LifeStage Model

The Life Stage Model can be invested in specialist, balanced or passive investment portfolios. The model has a set format for investing depending on how many years you have to normal retirement age.

- Your own choice of portfolios. This is a list of investment portfolios that you choose from.

You need to choose one of the following options. Details of these options are provided below.

1. The LifeStage Model

Tick this box to instruct us to invest 100% of the money in your fund credit and ongoing contributions in the LifeStage Model.

The normal retirement date is the date given in the special rules of your fund. To find out what it is, please refer to your member booklet or fund rules.

2. Your own choice of portfolios

Tick this box to invest your fund credit and ongoing contributions in the portfolios shown below. If you choose this option, you must make sure that you have received appropriate advice.

Indicate how you choose to invest by selecting from the options below. Then show how you divide the investment within that choice. Your choices must equal 100%.

Investment portfolio	"A"% Fund Credit				"B"% Ongoing Contribution			
				%				%
AFI Accelerator				%				%
AFI Banker				%				%
AFI Performer				%				%
AFI Conserver				%				%
AFI Shari'ah High Growth				%				%
TOTAL	1	0	0	%	1	0	0	%

NOTE: If you selected AFI Real Return Focus portfolio as part of your MIC strategy and you wish to make changes to your strategy, you need to obtain a special investment instruction form from zzlpf@aforbes.com.
